FENTON
AREA PUBLIC SCHOOLS

April 15, 2019

Dear Fenton Area Public Schools Families,

This winter is a winter to remember! Between the snow, ice and severe cold, school was canceled twelve times. The Michigan Department of Education allows for six "severe weather days" to be forgiven and public schools are allowed to complete a waiver asking for an additional three days. We applied for the waiver for the three additional days to be forgiven and the state granted our school district those days. That leaves three days that we will be making up. We must make up the hours and days missed. In order to account for the missed hours and days, the FAPS administration worked with the teachers union to set the revised calendar below. I understand that canceling school due to severe weather, or dangerous road conditions, places some of our families in a tight spot and by revising our calendar, some of our families may have to rearrange schedules. The revised calendar below represents both our desire to keep our families safe in the winter and our priority to teaching and learning.

Sincerely,

Adam Hartley, Ed.D.
